Under the American Recovery and Reinvestment Act of 2009 (ARRA), the Centers for Medicare and Medicaid Services have made funds available to assist in adopting Electronic Health Records (EHR). The Division of Medicaid (DOM) is surveying the provider types listed below regarding their current status and plans for upgrading their practice management systems to provide electronic health records.

1. Physicians
2. Dentist

Additional provider types working Rural Health Clinics and Federally Qualified Health Centers:

3. Physician Assistants
4. Nurse Practitioners
5. Nurse Midwives

The survey link (<https://www.surveymonkey.com/s/HV7PPZ9>) will be available on both the Mississippi DOM Website (under the provider section) and the Envision Website on July, 2010. Your participation will provide key information for DOM to develop the Mississippi Medicaid incentive program for the adoption, enhancement and implementation of EHRs. Please complete the survey promptly.

Qualification for the program is not automatic and application for the program incentive will not occur until after the program is finalized. Additional information and instructions will be provided when the program is finalized.
