External Quality Review Organization (EQRO) Services
Amendment #1
RFP # 20260731 / RFx # 3160008164
August 10, 2026

Purpose

The purpose of this amendment is to clarify the procurement requirements related to vendor questions and SharePoint access.

1. **Elimination of Letter of Intent Requirement**

   The reference to a **Mandatory Letter of Intent** in **Section 1.6.1** – RFP Questions and Answers was included in error.

   A Letter of Intent is not required for this procurement.

2. **Submission of Questions**

   All prospective Offerors may submit written questions in accordance with the Procurement Timetable.

   Questions are due **August 18, 2026**, and **no Letter of Intent or other preliminary submission is required** in order to submit questions.

3. **SharePoint Access Request**

   Offerors intending to submit a proposal must complete and submit the **SharePoint Access Request Form** no later than **September 9, 2026**, as instructed in the solicitation. The SharePoint Access Request Form is required only to obtain access to the electronic proposal submission site and does not affect an Offeror's ability to submit questions during the procurement process.

Except as amended herein, all other terms and conditions of the RFP remain unchanged. Vendors are responsible for ensuring that their submissions reflect the corrections outlined in this amendment.
